Our Equipment Works Harder So You Don't Have To

The Biro HHP (Heavy Horse Power) Meat Grinders are a series of manual feed grinders with a range of bowl sizes and motor sizes that can be tailored to meet your grinding needs. With bowl sizes of 48, 52, or 56 and motor sizes of 5, 7.5, 10, or 15 hp (4, 5.5, 7.5, or 11 kW), we can provide a grinder that is just right for your operation. All of the HHP series grinders feature single reduction chain drive transmissions for maximum efficiency, and all the grinders use tapered roller bearings for low maintenance and long life. The HHP grinders have output capacities ranging from 1500 lbs. (680 kg) per hour to 7500 lbs. (3400 kg) so you can pick the model that fits best. All across the board, the Biro HHP series of Manual Feed Meat Grinders works harder so you don't have to.
